B Research Objective

My research interests include Software Defined Networking (SDN), Network Function Virtualization (NFV), Fog Computing, Next Generation Networks and Performance Modeling of Network and Communication System. Particularly I am interested in network management and future network architecture using SDN and NFV. So far I have worked on the scalability issues that arise during deployment of SDN to provide network management to the large scale networks consisting of Internet of things (IoT) devices. I have developed multiple "orchestration" frameworks that automate the deployment challenges and provide fault and partition tolerance to the system. I am particularly interested in developing a management-free and future-proof network architecture. My approach is to identify a systems problem, reduce it to its core by stripping away unnecessary details, and look for clean conceptual solutions. Such an approach often clarifies the issue and shows possible connections to other areas where we can borrow ideas and develop innovative solutions.

C Academic Qualification

- **Post Graduation:** Doctor of Philosophy in Computer Science and Engineering from Indian Institute of Technology, Guwahati (July,2014 - April,2021)
- **Post Graduation:** Master of Technology in Computer Science and Engineering with **CGPA: 8.81/10** from Indian Institute of Technology, Guwahati (June,2012 - July,2014)
- **Graduation:**Bachelor of Technology in Computer Science and Engineering with **CGPA: 8.04/10** from B.P Poddar Institute of Management and Technology, WestBengal University of Technology (July,2006 - June,2010)
- **Higher Secondary (10+2):** with **77.5%** from Beldanga C.R.G.S High School, under West Bengal Council of Higher Secondary Examination (May,2006)
- **Secondary (10):** Madhyamik with **81.5%** from Sargachhi Ramakarishna Mission High School, under West Bengal Board of Secondary Education (April,2003)

D Professional Experience

- **Assistant Professor:** Department of CSE in SRM-University, AP(From June 2021)
- **Temporary Project Staff:** Department of Computer Science and Engineering in Indian Institute of Technology, Kharagpur (October 2020 - March 2021)
  Project Name: Development of Algorithms and Tools for Log Analytics and Vulnerability Assessment
  Principal Investigator: Dr. Sandip Chakraborty
- **Automation Test Engineer:** Programmer Analyst Trainee in Cognizant Technology Solution India Pvt. Ltd. (July 2010 - July 2011)

E Thesis

Subhrendu Chattopadhyay,*SDN for Large Scale IoT Networks*, PhD thesis, Supervised by Prof. Sukumar Nandi, Indian Institute of Technology Guwahati, `http://gyan.iitg.ernet.in/handle/123456789/1854`, 2021.

F Awards

1. **Fellowship:** Recipient of TCS Research scholarship (Cycle 10) and Fellowship from MHRD
2. **Travel Grants:**
   (a) Received conference travel grant from IEEE COMSNETS and LRN foundation.
   (b) Recipient of travel grant from Mirosoft India, Research and Development
3. **Best paper awards:**
   (a) IEEE INFOCOM 2019 [4] (in a session)
   (b) IEEE COMSNETS 2016 [10]
   (c) IEEE ANTS 2013 [16]

G Voluntary Services

1. Conference Reviewer: IEEE ANTS (2014 - 2018), IEEE ICC 2017, IEEE NCC 2017, IEEE ISED 2017, IEEE COMSNETS (2018-2019)
2. Journal Reviewer: Springer Journal of Network and Systems Management
3. Member of Technical Program Committee: IEEE COMSNETS (2020-2021)

H Collaborations

I had the opportunity to collaborate with the following distinguished faculty members.

1. Dr. Sandip Chakraborty, Associate Professor, IIT Kharagpur
2. Prof. Soumya K Ghosh, Professor, IIT Kharagpur
3. Dr. Samar Shailendra, Scientist, TCS Networks Lab
4. Dr. Sushanta Karmakar, Associate Professor, IIT Guwahati
5. Dr. Abhinandan S. Prasad, Associate Professor, NIE Mysore
6. Dr. Debarati Sen, Associate Professor, IIT Kharagpur [On-going]
7. Dr. Niladri Sett, Assistant Professor, SRM University AP

I Reference Persons
